

Safe Environments for Children and Young People “Through Their Eyes” Training

Child safe environments are safe and friendly settings where children feel respected, valued, and encouraged to reach their full potential. Children and young people have a right to be safe and protected at all times. The [Children and Young People \(Safety\) Act 2017](#) requires certain organisations provide a child safe environment.

Safe environments training assists organisations to support their staff and volunteers to recognise, report and respond to children or young people who may be at risk of harm, and build their capacity to provide child safe environments. It is for people who work or volunteer with children and young people and covers topics including:

- Child Protection in context, values and attitudes
- Legislation obligations when working with children (including screening obligations)
- Risk and harm – abuse related trauma
- Abuse related trauma, sexual abuse, online grooming
- Responding to disclosures
- Child safe environments
- Reporting suspicion of risk and harm

At their foundation, CAFFSA workshops are based on relational and best practice frameworks and will provide participants with a side by side learning experience where relationships are at the centre of all training delivered. CAFFSA is pleased to be a public provider and deliverer of Safe Environments for Children and Young People – Through their Eyes both virtually online via Zoom and Face to face.

Please note that Safe environments training requires participants to explore types of risk of harm to children and young people, including domestic violence, sexual and physical abuse. If you are concerned about attending this program, please speak to us prior to attending the course to discuss options. For more information on child safe environments or your organisations’ legal obligations visit <https://dhs.sa.gov.au/services/community-and-family-services/child-safe-environments>
