

Child and Family Focus SA (CAFFSA)

New Training Requirements Working Group

Summary of recent meetings

- First meeting was convened in May 2022, following completion of a survey by most member agencies that was issued by CAFFSA in April 2022. It focussed on changes arising from DCP's updated minimum qualification and training service provider personnel requirements issued in March 2022, with a transition phase from 16 March 2022 to 15 March 2023.
- DCP and CAFFSA are working in issues of concern together and it is anticipated that a clarifying FAQ document will be issues by DCP soon to respond to the queries. The working group is also keen to explore opportunities for joint training and take a more strategic view by aligning our principles and frameworks with our training in several prescribed areas.
